WORK EXPERIENCE

- Successfully completed a virtual web development internship on **Letsgrowmore** from March 2023 to April 2023.
- Successfully completed a virtual Java development internship on **CodeClause** from July 2023 to August 2023.

PROJECT

- Desktop based Quiz Application:** [Technology used :- CoreJava [Swing &AWT]
The Desktop-based Quiz Application project in Java offers an interactive platform for users to participate in quizzes. Developed using Java, this application enables users to select and answer questions on their desktop. With a user-friendly interface, it presents questions one by one, records and evaluates answers, and displays scores upon completion.
- Music Player Website:** [Technology used :- Html, Css,JavaScript]
The music player project is a web-based application that allows users to stream and listen to music online. It includes features such as a user-friendly interface, search functionality, and playlist creation. The system is built using HTML, CSS, and JavaScript.
